

Accounting

We understand the importance of being responsible financial stewards. Our GAAP-compliant accounting software includes unique features built for the Catholic Church. ParishSOFT is elevating the standard for technology and services, while creating a frictionless experience for our Catholic partners.

Accounting

ParishSOFT Accounting is a web-based platform that give parishes real-time, integrated financial management and optimized support. It is the preferred, time-tested solution by over 40 arch/dioceses to protect both their organizations and churches from fraud. Discover powerful fund accounting specifically designed for parishes, schools, and diocesan organizations.

Ledger and Payables

ParishSOFT Ledger and Payables is a true non-profit accounting system that delivers instant and secure access to church and school financial information from any internet enabled device. Easily track bills, deposits, projects, funds, journal entries, and budgets for every department.

Purchase Orders

Gain greater visibility into your organization's actual spending and track purchases so you can confidently report on your organization's financial data. ParishSOFT Purchase Orders allow your team to access data in real time.

Fixed Assets

Track and account for the costs of various assets, including buildings, land, vehicles, equipment, furniture, and more. The Fixed Assets module supports informed management and reporting of the assets your organization owns.

Ledger Report Writer

Ledger Report Writer is a fully integrated, add-on module where users can custom create consolidated or organization-level statements of activity and financial position from your general ledger to deliver accurate financial data in real time.

Accounts Receivable

Accounts Receivable is an easy-to-use system designed specifically to help parishes and schools track invoices, due dates, payments, "customers," deposits, and more. All transactions are inherently connected with your chart of accounts.

Payroll

Confidently manage payroll, deductions, benefits, special clergy allowances, and personal time. All payroll is automatically tracked in your general ledger, so there is no need for duplicate data entry or special imports.

Consolidation Manager

Consolidation Manager is the diocesan component of the web-based ParishSOFT Accounting for parishes and schools. Your command center provides complete, dynamic control and financial reporting over every organization.

How ParishSOFT Compares to QuickBooks

ParishSOFT Accounting

- Web-based
- Unlimited users, support, and updates
- Single database for all organizations
- Standard chart of accounts
- Integrates with ParishSOFT Family Suite and Giving

QuickBooks

- Desktop install
- Per-user fees, and upgrades not included
- Multiple databases
- No closed periods and no standard chart of accounts
- No church management suite or offertory integration
