Consolidation

Securely access financials for all parishes, organizations, and schools anytime, anywhere with our powerful web-based software.

Diocesan financial consolidation to support the needs of every parish and school.

Consolidation is the diocesan component of the web-based ParishSOFT Accounting system designed for your parishes and schools. Your command center provides everyone in your diocese complete, dynamic financial reporting for every organization.

Consolidation supports your diocesan policies, best practices, and oversight through built-in controls for user permissions, user activity tracking, audit support, chart of accounts management, closed periods, transaction detail drill-down, and the ability to support bookkeeping staff across your diocese in real-time. Dioceses that have standardized on ParishSOFT Accounting also appreciate that the system gives them a common platform for training, support, and collaboration with their organizations.

ParishSOFT Accounting is web-based, allowing authorized users access from any computer or device with Internet access.

Plus, all backups and updates with ParishSOFT are done automatically, so diocesan finance department staff can trust that every location in the diocese is using the same version of the software and the same, up-to-date tools. With our automatic updates, current tax tables, the most accurate financial data is at your fingertips.

Benefits

- Supports a standard diocesan chart of accounts with a flexible account structure and the option to "lock down" accounts
- Delivers reports that mirror the activities and ministries of the church
- Secures parish and school financials in a single database — no import/export or sync required
- Eases and streamlines reporting at the parish, school, and diocesan levels
- Allows the diocese to better support pastors, staff, and finance councils in safeguarding funds, ensuring transparency and compliance, and sustaining strong financial health
- Provides a standard technology environment for training, process control, policy development and implementation, collaboration, audits, and robust support for all parishes and schools
- Allows every parish, mission, and school to have all the underpinnings of a proper fund accounting system — whether the bookkeeping is done onsite by a staff person or offsite by a professional accountant at the diocese or another location

ParishSOFT Financial Consolidation is the diocesan component of the web-based ParishSOFT Accounting system for parishes and schools. It offers your diocese complete, dynamic financial reporting from each and every organization.

Boost Productivity

- Standard, locked-down chart of accounts with flexible subaccounts

- Instant details with transaction-level drill down

- Dashboard display for timely opportunity and issue identification

- Secure information-sharing and collaboration across all parishes

- Powerful reports for any period, fund, or organization

- Part of our fully integrated church management suite

- Improved support and training from the collective resources of the diocese, staff peer network, and ParishSOFT

## For Churches, Schools, and Nonprofits

- Reports that mirror activities of the church, reflecting and empowering ministry

- Meets Financial Accounting Standards (FASB117)

- Provides a true fund accounting system

- Uses church terminology with unlimited users and support

- Online system available 24/7 from any computer or device with an Internet connection

- Automated backups and updates

Streamline Financial Management

- All parish financials in a single database in real time, all the time —with no import/export or sync required

- Built-in controls, user activity tracking and audit support

- Ability to perform accounting functions on behalf of any organization or provide accounting as a service

- Standard system for training, process control, and support
