

Fixed Assets

Our web-based Fixed Assets module allows your school or organization to track and maintain accurate records of everything it owns in ParishSOFT Accounting.

Track Assets Easily Across Your Parish or Diocese

Manage and track your assets more effectively with the Fixed Assets module. Our software is highly configurable to meet the unique needs of your parish. It can help solve problems as the number of assets change or the size of your organization evolves. This allows you to maintain a complete financial picture of everything you own and what it's worth. This improves accountability to donors, governing boards, finance councils, and other leaders.

Fixed Assets for Churches, Schools, and Nonprofits

ParishSOFT's Fixed Assets module allows your organization to reduce risk and costs with more accurate inventory, current valuation, history, and proper asset maintenance and insurance. This provides better overall management of assets and planning for replacements. Use Fixed Assets to track buildings, land, vehicles, equipment, furniture, and more, so you'll always have the correct records across your organization.

Effectively Streamline Asset Management

Provide your organization with powerful reports for your pastors and administrators with speed and accuracy. Fixed Assets allows your parish or school to track all assets in a single database in real time—with no import/export or sync required and built-in controls and user activity tracking.

Detailed Tracking with Fixed Assets Module

Fixed Assets supports your parish or diocese with the ability to organize all the details for each asset in a single place. This includes:

- Unique record for each asset owned
- Date of purchase
- Location
- Who has the asset
- Warranty information
- Insurance providers and valuations
- Maintenance schedules and notifications
- Cost
- Depreciation (optional)
- Sale / disposal

Benefits of ParishSOFT's Fixed Assets

- Present a complete financial picture of your organization when you know what you own and what it's worth.
- Reduce risk and costs with an accurate inventory, current valuation, history, and asset maintenance and insurance.
- Enable better overall management of assets — and plan for replacements.
- Improve accountability to donors, governing boards, finance councils, and other leaders.
