

ParishSOFT Giving: Multiple Ways to Give

Enhanced Giving Experience for Parishioners

Every parishioner's path to generosity is unique. In a multifaceted and multigenerational community, individuals have varied preferences and capabilities regarding giving. Providing multiple methods of contribution from cash and checks, online giving, text-to-give, mobile apps, digital wallet, stock and crypto, and automatic bank transfers ensures that all parishioners can support the parish in their preferred way. Meet parishioners where they are. ParishSOFT Giving fosters a more inclusive and accessible approach to stewardship, making it easier for everyone to contribute meaningfully to the life and mission of the parish.

Simplify Giving for your Donors by Providing Multiple Ways to Give.

Website: Collect donations easily with customized giving forms available to embed on the parish website or anywhere you share the link. Donors can create an account from the giving page and set up recurring giving with selected funds, frequency, and amount.

Text-to-Give: There's no faster way for your parishioners to give than with text giving. Included with your giving plan at no additional cost, this convenient giving solution is an incredible value and a perfect addition to your giving platform.

Digital Wallet: Join the growing popularity of digital wallet options like Google Pay, PayPal, Apple Pay, and Venmo. These payment methods offer the convenience of donating or purchasing without manually entering credit card information. Seamlessly integrate these digital wallets at no extra cost to your parish.

Giving Kiosk: Kiosks are a great way to increase community and engagement. For in-person donations, ParishSOFT Giving kiosks provide a convenient option for parishioners and visitors to give on-site securely. Parishioners can register for events, submit prayer requests, and more!

Mobile Giving App: The ParishSOFT Giving mobile app allows parishioners and guests to easily make one-time or recurring donations directly from their iOS or Android devices. Regardless of location or event, the app keeps donors connected with their parish and simplifies the donation process.

QR Codes: Simplify donations with QR codes, allowing donors to scan and contribute using mobile devices. Each form created by the parish will generate a unique QR code for easy sharing. Parish staff can download the unique QR code for posters, presentations, brochures, and more!

Stock and Crypto: ParishSOFT has teamed up with The Giving Block™, enabling stock and cryptocurrency donations for parishes. Stock donors fill in details to create a donation form sent to their broker, with processing taking 5-10 business days and a final receipt issued post liquidation. Cryptocurrency donors receive a unique code or QR for their crypto wallet, which gets liquidated for cash upon Blockchain confirmation by Renaissance Charitable's wallet, followed by a receipt from Renaissance Charitable Foundation, Inc.

Checks: ParishSOFT offers Automated Check Deposit. Scan your checks, associate them with your donors and funds, and you're done! Your deposited checks will be displayed in your ParishSOFT Giving module and batch deposit reporting will be available when donations have settled into your bank account.

ParishSOFT Giving meets parishioners where they are, embracing a multigenerational approach to stewardship that reflects their diverse preferences and lifestyles. By offering a range of convenient giving options, we make it easier for everyone to contribute, leading to a stronger offertory and a more vibrant parish community. The ease of giving translates into greater engagement and support, ultimately strengthening the mission of the Catholic Church.
