

MinistryOne™: Empowering Parishes, Connecting Families

MinistryOne™ is a transformative mobile church app designed by church leaders who understand the need for connecting with families. This powerful digital platform enables parishes to maintain meaningful connections with their parishioners throughout the entire week, regardless of their location.

The app comes complete with essential features that enhance parish engagement, including seamless digital giving options, multimedia content delivery, event management, and an interactive prayer request systems. Beyond these core functionalities, MinistryOne offers additional tools like group messaging, mass archives, and customizable push notifications to keep your parishioners informed and connected. Whether your members are at home, traveling, or unable to attend mass in person, this intuitive app ensures they remain an active part of your parish community.

Connect with Your Community and Your Software

We aim to support your parish's vision by offering a solution that integrates with the internal tools you are already use. MinistryOne is an application built to seamlessly link your ministry with your community.

Integrations

Parishes need a mobile app that functions smoothly, without requiring technical knowledge about APIs or costly IT support services. MinistryOne was designed specifically to integrate with ParishSOFT Giving and Facility Calendar.

Custom Branding

Transform your regular MinistryOne app into a personalized parish application to expand your impact and strengthen your brand identity. Customize the app's icon to reflect your parish's style, personalize the app's name, incorporate your logo in the loading screen, and guide users to your dedicated app store listing.

Customization

Customize MinistryOne using beautiful templates that align with your parish's colors, add your logo and brand elements to craft a unique experience for your parishioners. No technical expertise required – easily modify the app through our intuitive editor interface.

Media

Conveniently centralize all mass, videos, and media content in a single location, ensuring easy accessibility. Connect smoothly with YouTube, or Vimeo, to enable real-time syncing and distribution. Additionally, weekly mass recordings become available through your podcast feed. By sharing inspirational content each week, you can keep inspiring your community throughout their daily lives.

Giving

MinistryOne makes digital donations simple and effective. Parishioners can easily manage single or recurring contributions through the app. Using customizable forms, parish leaders can establish dedicated giving options for special occasions, missions, or designated funds.

Events

Promote engagement via MinistryOne as the central platform where your parishioners can swiftly connect, sign up, and process payments for events.

Prayer Requests

Transform prayer requests into a dynamic element of your ministry, allowing members to submit requests anytime from anywhere. Respond to prayer needs swiftly using MinistryOne.

Connections

The one place to go to make connections. MinistryOne allows members to easily connect, signup and pay for events, classes or small groups. Connecting your families and increasing engagement has never been easier.

Push Notification

Deliver important updates and alerts through push notifications and in-app messages to ensure your parishioners stay informed. Schedule messages ahead of time or send them immediately. Share event links, registration details, prayer updates, breaking news, or critical weather alerts to keep your community connected and informed.

Live Streaming from ChurchStreaming.tv

Start streaming! It's seamless through our integration with Churchstreaming.tv – accessible on your website, mobile app, and social platforms. Streaming content appears instantly in the app where parishioners can view, engage, donate, and stay connected to your church community – regardless of their location.
