

ParishSOFT in Partnership with National Church Solutions (NCS)

One Unified Stewardship Experience for Your Parish

Parish leaders are called to shepherd both mission and resources, while maintaining the financial stability that sustains parish life. Yet many parishes manage online giving, recurring gifts, and envelopes across multiple vendors and manual processes, creating extra work, inconsistent reporting, and less predictable offertory.

ParishSOFT and NCS bring these pieces together in one coordinated approach, making stewardship simpler to manage, more consistent for parishioners, and more reliable for parish planning. The result is clearer visibility into giving, steadier support for operations and ministry, and a stronger financial foundation for the parish.

A Trusted Catholic Partnership

A consistent offertory begins by meeting parishioners where they are in how they choose to give. ParishSOFT enables digital and recurring generosity, while NCS envelopes support parishioners who prefer traditional giving. The result is fewer vendors, simpler administration, stronger recurring giving, and a more predictable offertory that supports parish stability.

Complete Envelope Programs Built for Catholic Parishes

NCS provides print and communication support along with a complete envelope program that works with ParishSOFT Giving to encourage consistent participation across the parish community. Custom designs, special collections, multilingual options, and flexible schedules help envelopes reflect the identity of your parish while meeting parishioner needs.

Mailing Program

When parishioners are reminded of the mission they share, generosity follows. NCS's Mailing Program helps parishes reach families with envelopes and messages aligned to Sundays, Holy Days, and special collections, encouraging steady participation and sustaining offertory throughout the year.

Boxed Set Program

When families have a simple, familiar way to prepare their weekly offering, generosity becomes a steady rhythm of parish life. Annual boxed sets provide Sunday, Holy Day, and special collection envelopes that support engagement and a more predictable offertory.

Pew Envelopes

Every person who enters your parish should have an easy way to participate in its mission. Custom pew envelopes provide visitors and occasional attendees a welcoming path to give for offertory, special collections, or sacramental moments.

Connected Data. Consistent Offertory.

Seamless database synchronization keeps parish records accurate and reduces manual work, while automated mailings ensure envelopes reach parishioners on time. Address verification maintains clean data and helps parishes encourage consistent giving.

Strengthening the Offertory, Supporting the Mission

Offering envelopes remain a meaningful expression of belonging and stewardship in parish life, meeting parishioners where they are in how they choose to give. ParishSOFT Giving and NCS envelopes support one stewardship approach that honors tradition while encouraging participation. The result is simpler administration, stronger recurring giving, and a more predictable offertory that supports long-term parish stability.

Let's Take the Next Step

Connect with us today to see how consolidating vendors with ParishSOFT and NCS envelopes can create one unified stewardship approach that honors tradition, strengthens parishioner engagement, and simplifies parish operations.
