ParishSOFT Giving

Cultivate Generosity, SImplify Giving

More than 10,000 parishes have chosen ParishSOFT Giving to help close the contribution gap.

ParishSOFT Giving provides a powerful giving platform with seamless integrations, enabling parishes to enhance efficiency and parishioner engagement while increasing their offertory. Our solution streamlines fund collection and management for parishes. Utilizing ParishSOFT's comprehensive suite of solutions, you make swift, informed decisions using precise real-time information with instant access to your giving records.

Enhanced Giving Experience for Parishioners

In today's fast-paced world, parishioners have increasingly busy lives. It's essential to provide an online giving platform that makes it easy and convenient for parishioners to give. Online giving provides donors with multiple giving options beyond traditional cash or check offerings, allowing electronic contributions to specific funds and eliminating paper-based transactions. This accessibility can increase giving, as donors can contribute anytime, from anywhere, from any device.

Multiple Ways to Give:

- **Website:** Donors can contribute directly through your website using your parish's unique link.
- **MinistryOne Giving App:** Our user-friendly app enables donors to donate anytime, anywhere, with through their smartphones.
- **QR Codes:** Simplify giving with QR codes, allowing donors to scan and contribute conveniently using mobile devices.
- **Text-to-Give:** Donors can contribute seamlessly by sending a text message, making giving as easy as sending a text.
- **Kiosks:** For in-person donations, our kiosks provide a convenient option for parishioners and visitors to give on-site securely.
- **Automated Check Deposit:** Ensure that contributions made by check are handles efficiently and accurately.

Recurring Donations:

Recurring giving options help to stabilize giving trends and reduce slumps in slower seasons.

Pledges:

Encourage financial and spiritual discipline with your parishioners. Create a digital Pledge Card with pre-built fields to help collect the amount a donor would like to pledge, how much they're willing to pay towards that total over a set amount of time, and the frequency of those payments.

Second Collections:

With ParishSOFT Giving parishioners can view all funds in one single view-on one page. With no restrictions to the number of second collections, parishioners can schedule their donations in advance with a one-time setup and a pre-scheduled processing date created by parish staff.

Off-Set Transaction Fees:

Enable off-setting transaction fees for your donors, offsetting the cost of online giving for your parish.

Customizable Forms:

Create a wide range of combinations by using drag-and-drop form fields, design customization, and templates. The form-building process is intuitive and flexible, making it easy for parish staff to explore, modify, and create forms to meet changing needs. You can also add an impact report to your form to add more details about the mission or use of funds emphasizing why parishioners should get involved. Forms can be used for donations, registrations, prayer requests, sign-ups, and more!

Donor Engagement Tools:

Communicate and engage with donors through personalized messages, thank-you emails, and updates on the impact of their contributions. Send push notifications to donors through the MinistryOne App.

Reporting and Analytics:

Gain valuable insights into donor behavior and fundraising performance with robust reporting tools and analytics.

Best in Class Security and Compliance

To ensure your parish's and donors' security, it's important to prioritize data security and comply with industry standards such as PCI DSS. This is achieved by implementing two-factor authentication for parish staff, granting access based on need through permission controls, and using DonorShield™ to prevent duplicate payments and provide transaction queuing protection for outages with automatic system recovery.

ParishSOFT Giving is a tool that just works, plain and simple. It's easy for your parishioners, simple for your staff, financially secure, provides a variety of payment options, and protects against fraud. It's got everything you need in a giving solution. It makes it easier for parishioners to be generous, regardless of their capacity or giving history.

Need help Reinforcing the Values of Generosity?

Imagine each parish becoming a hub of increased engagement, where generosity is actively lived by every parishioner?

ParishSOFT Managed Giving makes this a reality, achieving a 53% average increase in total payment volume and a 51% rise in online donors within six months.

These results highlight the program's impact on your parish.
