Payroll

A powerful web-based payroll system for processing church and school payroll with ease and confidence from work or home.

Effective payroll management created with churches and schools in mind.

Part of ParishSOFT Accounting, our secure Payroll software does it all in one web-based system, from account distribution, benefits tracking, taxes, direct deposit, pre-tax and after-tax deductions, and "pay groups" to complete pay cycle processing and check printing.

ParishSOFT Payroll has a fresh, intuitive design, so in-house staff who are not payroll "experts" can use the system quickly and accurately with confidence. External payroll processors can access your parish system securely to keep payroll seamlessly tied to your accounting system.

Powerful reports with real-time data from one single database, e-filing of tax forms, and complete integration with our ParishSOFT Ledger and Payables software make this

module a must-have for every church or school!

ParishSOFT Payroll is a true web application, providing secure access using any device with an Internet connection. Best of all, backups and software updates are automatic.
