

## ParishSOFT Accounting:

Payroll powered by **aps**

**Steward your people.  
Strengthen your reporting.  
Return time to ministry.**

### A story many parishes know

It is Monday morning at the parish office.  
Payroll is due.  
Reports must align.  
Clergy compensation must be accurate.  
Father is preparing for Mass.  
The business manager is reconciling accounts.

All of this happens with limited staff and many responsibilities.

For Catholic parishes, payroll is not just administrative work. It is part of stewardship. It requires accuracy, compliance, and clear reporting across clergy and staff. When payroll, HR, and accounting are disconnected, teams spend time reconciling systems instead of supporting ministry.

- Many ministries operate this way today.
- Manual entry.
- Multiple systems.
- Compliance pressure.
- Limited time.

When payroll and accounting align, something changes. Reporting becomes clearer. Risk is reduced. Leaders gain confidence. Time returns to mission.

ParishSOFT Accounting: Payroll powered by APS helps Catholic organizations simplify payroll and HR while keeping financial reporting aligned, strengthening stewardship and freeing more time to serve your faith community.

### Focus on your Families and ministry:

Catholic parishes are called to care for their people and steward resources faithfully. Payroll brings added complexity, from clergy compensation and taxation to reporting across ministries, often with limited staff.

When payroll, HR, and accounting are disconnected, administrative strain increases and time is pulled from pastoral leadership. When they work together, leaders gain clarity, reduce risk, and can focus more fully on serving their parishioners and guiding the mission.

### A better Monday morning

Payroll runs accurately.  
Clergy pay is handled correctly.  
Reports match the general ledger.  
Compliance is supported.  
Staff are not reconciling duplicate data.

Instead of chasing spreadsheets, staff can focus on ministry, planning, and people.

Parishes often operate with lean staff and complex responsibilities. When payroll and HR are supported by a ministry-focused partner, administrative burden decreases and confidence in reporting increases.

# A ministry-focused solution

Designed for Catholic parishes, ParishSOFT Accounting: Payroll powered by APS aligns payroll and HR with your financial reporting. By connecting payroll directly to ParishSOFT Accounting and supporting clergy compensation and compliance needs, this approach reduces administrative strain and brings clarity to reporting so parish leaders can focus more fully on caring for their people and guiding the mission.

What changes for the parish staff

## Clear reporting you can trust

When payroll aligns with ParishSOFT Accounting, records stay in step and reconciliation is simplified. Pastors and finance leaders gain confidence in reporting and stewardship.

## Less time on administration

A unified payroll and HR approach reduces manual entry and duplicate work. Staff spend less time managing processes and more time supporting parish life.

## Confidence in compliance and clergy pay

Clergy compensation and tax requirements are handled with care and accuracy. Proper filings and payroll expertise reduce risk and bring peace of mind.

## Visibility across parishes and ministries

Centralized reporting provides clear oversight across parishes, schools, and ministries. Leaders gain visibility into labor costs and financial health.

## Flexible for your parish

Some parishes manage payroll internally. Others choose outsourced support. Either way, payroll and accounting remain aligned within ParishSOFT Accounting.

## The result

When payroll and accounting work together, reporting becomes clearer, risk decreases, and staff workload lightens. Leaders gain confidence and more time returns to ministry.

## An invitation

You carry many responsibilities in caring for your parish. We would be honored to review your payroll process with you and identify simple ways to reduce administrative strain and support your stewardship.
